About This Book

Determining the best way to pose a subject—a way that is simultaneously flattering, appropriate, and visually appealing—can be one of the biggest challenges in designing a successful portrait. This is especially true when creating portraits of brides, where the photographer may be called on to create anything from a very traditional head-and-shoulders pose to a more adventurous full-length look straight out of the pages of a fashion magazine. Quite simply, the variations are almost limitless—as is the pressure to perform flawlessly throughout this once-in-a-lifetime event.

This collection is a visual sourcebook designed to address exactly that problem. Filled with images by some of the world's most accomplished wedding photographers, it provides a resource for professionals seeking inspiration for their own work. Stuck on what to do with a particular bride or unsure how to make use of a location? Flip through the sample portraits, pick something you like, then adapt it as needed to suit your tastes. Looking to spice up your work with some new poses? Find a sample that appeals to you and look for ways to implement it (or some element of it) with one of your brides.

For ease of use, the portraits are grouped according to how much of the subject is shown in the frame. Thus, the book begins with head-and-shoulders portraits. Next are

waist-up portraits, featuring images that include the head and shoulders, arms and hands, and at least some of the subject's torso. Moving on to three-quarter-length portraits, the examples feature subjects shown from the head down to mid-thigh or mid-calf. The balance of the book features full-length images—the most complex portraits to pose because they include the entire body. Both the three-quarter- and full-length portraits are additionally subdivided into poses for standing subjects, seated subjects, and reclining subjects. As much as possible, images are also grouped thematically to demonstrate poses for photographing the bride with her bouquet, displaying her rings, showing the back of the dress, etc. In these subgroupings, it becomes particularly obvious how even subtle posing changes can completely transform an image—and how differently photographers can approach the creative process of posing.

It can be difficult to remain creative day after day, year after year, but sometimes all you need to break through a slump is a little spark. In this book, you'll find a plethora of images designed to provide just that.

“After we leave the bride’s house, I shoot photojournalistically until we do the family portraits after the ceremony. The one exception is the shot I create when the bride arrives at the church. To prepare for this, I advise the bride to **remain in her car when she arrives**. By letting her know exactly what to do, I can capture great moments of the groom and guests waiting inside without having to worry about missing the bride’s arrival.”¹—*Marcus Bell*

“Most people want their eyes to look as large as possible. By turning the face toward the main light and bringing the subject’s gaze back to the camera, the pupil shifts more toward the corner of the eye opening and **gives the eye more impact** as well as a larger appearance.”⁴—*Jeff Smith*

“When an image is created at the exact height of the subject’s emotion, there is a certain level of vulnerability. That moment is as far as you can get from the stale smiles and deer-in-the-headlights looks you often find in formal photographs. In a moment of purity, you are able to catch the truth about all they are feeling; you are actually making a study of the human condition.”—Tracy Dorr

PLATE 182. PHOTOGRAPH BY HUY NGUYEN.

“The size of the bustline is determined by the appearance of cleavage. Cleavage is nothing but a shadow. **Turn the subject** toward the shadow side of the frame and you will, in turn, increase the apparent size of the bustline.”⁹—*Jeff Smith*

“I urge you to pay close attention to the details. Little things like a **not-so-perfect veil** or the stems showing on a bouquet can ruin an otherwise beautiful portrait. They may not seem like much, but the details can make or break your image.”¹⁰—Rick Ferro

“Ten years ago, I looked at wedding photography and said, ‘If I’m going to do wedding photography, I need to do **something different** with it.’ So I started to do things like cross-processing and infrared. I got really good at those techniques, but the minute I mastered them, I thought, ‘Okay, I know how to do this, I don’t want to do it anymore.’ I always want to move on and learn something new.”¹²—*Cherie Steinberg Cote*

“‘Shift your weight’ is a key phrase that can really help flatter the subject in their photos. Some people have a difficult time learning to **shift their weight** away from the camera, and it may take some practice. [The engagement session] allows some time for this, so you don’t have to slow down the portraits on the wedding day.”¹⁶—*Kathleen Hawkins*

Posing Basics

This section covers the fundamental rules of traditional posing—techniques that are illustrated in many of the images in this book. While these rules are often intentionally broken by contemporary photographers, most are cornerstones for presenting the human form in a flattering way.

Portrait Lengths

There are three basic types of poses, each defined by how much of the length of the subject's body is included in the image. Head and shoulders portraits, or headshots, show the subject's head and shoulders. If the hands are lifted to a position near the face, these may also be included. Waist-up portraits include the subject's head and shoulders along with at least some of the torso. In portraits of women, these images are often cropped just below the bustline or at the waist. (Waist-up portraits are sometimes considered a type of headshot.) Three-quarter-length portraits show the subject from the head down to the mid-thigh or mid-calf. In some cases, one foot may be visible. Full-length portraits that show the subject from the head down to the feet (or at least the ankles). In some cases, only one foot may be visible.

HEAD AND SHOULDERS PORTRAIT BY DAMON TUCCI.

WAIST-UP PORTRAIT BY REGETI'S PHOTOGRAPHY.

THREE-QUARTER-LENGTH PORTRAIT BY DOUG BOX.

FULL-LENGTH PORTRAIT BY REGETI'S PHOTOGRAPHY.

When including less than the full body in the frame, it is recommended that you avoid cropping at a joint (such as the knee or elbow); this creates an amputated look. Instead, crop between joints.

Facial Views

The most flattering facial view depends on the bride, the lighting, and the mood you are attempting to create.

In the full-face view, the subject's nose is pointed at the camera. This is the widest view of the face, so it may not be well suited to brides with rounder faces.

In the three-quarters view (sometimes called the two-thirds view), the subject's face is angled enough that one ear is hidden from the camera's view. This is a flattering, slimming view for most faces. In this pose, keep in mind that the far eye will appear smaller than the near eye because it is farther away from the camera. Also, be sure not to turn the head so far that the tip of the nose extends past the line of the cheek or that the bridge of the nose obscures the far eye.

In the profile view, the subject's head is turned 90 degrees to the camera. When creating a profile, be sure to turn the bride's face so that the far eye, eyebrow, and eyelashes are obscured.

The Shoulders

The bride's shoulders should usually be turned at an angle to the camera. Having the shoulders face the camera directly makes her look wider than she really is and can yield a static composition. With a slim bride, however, squaring the shoulders to the camera can give the image an assertive mood that is quite appealing.

THE BRIDE'S SHOULDERS ARE AT AN ANGLE TO THE CAMERA.
PORTRAIT BY KEVIN JAIRAJ.

The Head

Tilting the Head. Tilting the head slightly produces diagonal lines that can help a pose feel more dynamic. In portraits of women, the head is traditionally tilted toward the near or high shoulder, but this rule is often broken. The best practice is to tilt the bride's head in the direction that most flatters her.

Chin Height. A medium chin height is desirable. If the chin is too high, the bride may look conceited and her neck may appear elongated. If her chin is too low, she may look timid and appear to have a double chin or no neck.

Eyes. In almost all portraits, the eyes are the most important part of the face. Typically, eyes look best when the eyelids border the iris. Turning the face slightly away from the camera and directing the bride's eyes back toward the camera reveals more of the white of the eye, making her eyes look larger.

Arms

The bride's arms should be separated at least slightly from her waist. This creates a space that slims the appearance of her upper body. It also creates a triangular base for the composition, leading the viewer's eye up to her face. Additionally, keep in mind that simply bending the elbows creates appealing diagonal lines in your composition—and placing these carefully can help direct the viewer of the image to the bride's face.

Hands

Keep the hands at an angle to the lens to avoid distorting their size and shape. Photographing the outer edge of the hand produces a more appealing look than showing the back of the hand or the palm, which may look unnaturally large (especially when close to the face). Additionally, it is usually advised that the hands should be at different heights in the image. This creates a diagonal line that makes the pose more dynamic.

Wrist. Bending the wrists slightly by lifting the hand (not allowing it to flop down) creates an appealing curve that is particularly flattering in bridal portraits.

Fingers. Fingers look best when separated slightly. This gives them form and definition.

Props. Hands are often easiest to pose when they have something to do—either a prop to hold or something to rest upon. When photographing the bride holding her bouquet, have her grasp it gently, or opt to hid her hands behind the bouquet. When photographing the bride's rings, give her something to rest her hands upon (her lap, the back of a chair, etc.).

LEAVING SPACE BETWEEN THE ARMS AND THE BODY SLIMS THE TORSO. PORTRAIT BY KEVIN JAIRAJ.

THE HANDS REST GRACEFULLY ON THE BRIDE'S LAP. PORTRAIT BY JEFF AND KATHLEEN HAWKINS.

Chest

Selecting a pose that places the torso at an angle to the camera emphasizes the shape of the chest and, depending on the lighting, enhances the form-revealing shadows on the cleavage. Turning the shoulders square to the camera tends to flatten and de-emphasize this area. Good posture, with the chest lifted and shoulders dropped, is also critical to a flattering rendition.

Waist and Stomach

Separating the arms from the torso helps to slim the waist. In seated poses, a very upright posture (almost to the point of arching the back) will help to flatten the stomach area, as will selecting a standing pose rather than a seated one.

Legs

Although most brides wear full-length gowns, posing the legs properly remains desirable because it impacts the posture of the entire body. Asking the bride to put her weight on her back foot shifts the body slightly away from the camera for a more flattering appearance than having the weight distributed evenly on both feet. Having her slightly bend her front knee will also help to create a nice line on the lower part of the gown.

Hips and Thighs

In some gowns, this area will naturally be concealed. If the bride has opted for a gown that is fitted through the hips and thighs, pose her hips at an angle to the camera and away from the main light. In a seated pose, have the bride shift her weight onto one hip so that more of her rear is turned away from the camera.

Feet

Brides are often very proud of their shoes, but pictures of feet with the toes pointed straight at the camera tend to look distorted. Instead, photograph the feet at an angle to the camera—better yet, place them at two different angles to the camera. A good rule of thumb is to ensure that at least one foot is turned enough that the heel is shown.

DETAILS OF EFFECTIVE FOOT POSING: PORTRAITS BY DAWN SHIELDS (LEFT) AND KEVIN JAIRAJ (RIGHT).

The Photographers

Marcus Bell (www.studioimpressions.com.au). Marcus Bell is the owner and principal photographer of the boutique photography studio Studio Impressions. He has been honored with over one hundred Australian and international awards for his photography, including being named Australian Wedding Photographer of the Year in 2006. Additionally, he has written for and been profiled in numerous photography magazines and lectured to photographers around the world. He is the author of *Master's Guide to Wedding Photography* from Amherst Media.

Doug Box (www.texasphotographicworkshops.com). Besides being an excellent photographer, Doug Box is a dynamic and entertaining speaker who has appeared in a wide variety of seminars around the world. He was also chosen to teach at the International Wedding Institute by Hasselblad University. He is the owner of Texas Photographic Workshops, a year-round educational facility, and the author of numerous books, including *Professional Secrets of Wedding Photography*, *Professional Secrets of Natural Light Portrait Photography*, and *Doug Box's Guide to Posing for Portrait Photographers*, all from Amherst Media.

Mark Chen (www.markchenphotography.com). Mark Chen is a professional photographer, Adobe Certified Photographer Expert/Instructor, Photoshop trainer, and owner of Mark Chen Photography in Houston, Texas. In addition to his studio operations, Chen teaches Photoshop at Houston Baptist University and Houston Community College and is touring the nation giving Photoshop training sessions. Mark is the author of *Creative Wedding Album Design Techniques with Adobe Photoshop* from Amherst Media.

Dave and Quin Cheung (www.dqstudios.com). Dave and Quin Cheung are the visual artists behind DQ Studios. Their strong story-telling ability, coupled with their high-fashion eyes, has earned them the love and respect of their clients and won them multiple international image and album awards. Dave and Quin are also highly respected educators of the wedding industry and have taught photographers from

around the world on topics ranging from the philosophy of wedding photography to business and sales structure. As co-creators of the QuiKeys workflow system, Dave and Quin continue to innovate workflow solutions from shoot to album design. Dave and Quin make their home in Calgary, Alberta, Canada with their two young boys.

Tracy Dorr (www.tracydorrphotography.com). Tracy Dorr, who holds a BA in English/Photography from the State University of New York at Buffalo, has been shooting weddings in a professional capacity since 2003. She is the owner of Tracy Dorr Photography, and in 2009 won two Awards of Excellence from WPPI (Wedding and Portrait Photographers International).

Rick Ferro and Deborah Lynn Ferro (www.rickferro.com). Rick Ferro and Deborah Lynn Ferro operate Signature Studio, a full-service studio that provides complete photography services for families, portraits, children, high-school seniors, and weddings. In addition to the acclaim they have received for their images, Rick and Deborah are also popular photography instructors who tour nationally, presenting workshops to standing-room-only audiences (for more on this, visit www.ferrophotographyschool.com). Rick and Deborah have also authored numerous books, including *Wedding Photography: Creative Techniques for Lighting, Posing, and Marketing* and *Artistic Techniques with Adobe Photoshop and Corel Painter*, both from Amherst Media.

Jeff and Kathleen Hawkins (www.jeffhawkins.com). For the past twenty years, Jeff and Kathleen Hawkins have operated an international award-winning wedding and portrait photography studio in Orlando, Florida. Industry sponsored, they are both very active in the photography lecture circuit and take pride in their impact in the industry and in the community. Jeff holds the Master of Photography, Certified Professional Photographer (CPP) and Photographic Craftsman degrees. Kathleen is also an award-winning photographer and takes pride in the connection she establishes with her clients. Together, Jeff and Kathleen have authored

nine books on photography, including *Professional Techniques for Digital Wedding Photography* from Amherst Media.

Kevin Jairaj (www.kjimages.com). Kevin Jairaj is an international award-winning fashion and wedding photographer based in Dallas, Texas. His colorful style and flair for the dramatic have garnered him worldwide acclaim. His work has been published in countless books and magazines around the globe and he is an in-demand speaker in the photography industry. You can get updates and information from Kevin at www.thekjblog.com.

Kevin Kubota (www.kubotaimagetools.com). Kevin Kubota is a professional wedding photographer and, with his wife Clare Kubota, owner of Kubota PhotoDesign. In 2007, *American Photo* named him one of the top ten wedding photographers in the world. Kevin is the founder of Kubota ImageTools.com—an award-winning company he created to produce training DVDs, album-creation software, and Photoshop action sets—and a popular speaker at major photographic conventions. He is also the author of *Digital Photography Boot Camp* (from Amherst Media), a book based on his popular workshop series.

Huy Nguyen (www.fvworkshop.com). Huy Nguyen's creative vision and photographic skills were shaped by years of experience as a staff photojournalist at major newspapers including the *Chicago Tribune* (1993–1994), the *Virginian Pilot* (1995–1998) and the *Dallas Morning News* (1998–2004). Now, he is focused on rocking the wedding world with innovative projects and new ideas. He is the founder of the Foundation Workshop (www.fvworkshop.com), the Foundation Workshop Forum (www.fvforum.com), and teaches the Ying Yang Workshop (www.yinyangworkshop.com). In 2005, Huy was recognized as the Wedding Photojournalists Association's (WPJA) Photographer of the Year.

Srinu and Amy Regeti (www.regetisphotography.com). The Regetis are internationally recognized for their skill in telling stories through photography. As a talented husband and wife team, they are also well known in the photography industry as motivational speakers. Their images have been featured in such magazines as *Grace Ormonde*, *Engaged!*, and *Virginia Bride*, as well as on ABC's *Nightline*. The Regetis operate a full-service studio located in the quaint historic town of Warrenton, Virginia, in the rolling hills outside of Washington, DC.

Dawn Shields (www.dawnshields.com). Dawn Shields is an award-winning professional photographer and studio owner who has been featured in *RangeFinder* magazine and *PDN*. She is the owner/publisher of *Metropolitan Bride* magazine and the Metropolitan Bride wedding shows—as well as a popular educator featured as a platform speaker at the national WPPI convention in 2010. She is proud to be among

the prestigious photographers on Grace Ormonde's *Wedding Style* Platinum List.

Jeff Smith (www.jeffsmithphoto.com). Jeff Smith is an award-winning photographer who owns and operates two studios in Central California and is well recognized as a speaker on lighting and senior photography. He is the author of many books, including *Corrective Lighting, Posing, and Retouching for Digital Photographers* and *Jeff Smith's Lighting for Outdoor & Location Portrait Photography* (both from Amherst Media), and *Senior Contracts* (self-published).

Cherie Steinberg Cote (www.cheriefoto.com). Cherie Steinberg Cote began her photography career as a photojournalist at the *Toronto Sun*, where she had the distinction of being the first female freelance photographer. She currently lives in Los Angeles and has been published in *Grace Ormonde*, *Los Angeles Magazine*, and *Town & Country*. She is also a Getty Image stock photographer and an acclaimed instructor who has presented seminars to professional photographers from around the country.

Damon Tucci (www.damontucci.com). Damon Tucci holds a degree in film-making from Florida State University and worked for Disney Photographic Services, shooting at least 250 weddings a year, before opening his own studio. Damon has now photographed nearly 4000 weddings, and seeks to hone his methods every time. An award-winning photographer who has been featured in numerous bridal and photography magazines, Damon is an eager pioneer in wedding photography techniques who is always willing to share his insights with his fellow professionals. He is the author of *Step-by-Step Wedding Photography* from Amherst Media.

Riccis Valladares (www.riccisvalladares.com). Riccis Valladares is a fine-art and documentary wedding photographer whose work is regularly commissioned by clients across the world. His work has garnered honors in WPPI competitions and is regularly featured in top industry and bridal publications, such as *RangeFinder*, *Inside Weddings*, *Martha Stewart Weddings*, and *The Knot*—and even on television shows, such as WE's *Platinum Weddings*.

Marc Weisberg (www.mwphoto.net). Marc Weisberg holds a degree in fine art and photography from UC-Irvine and also attended the School of Visual Arts in New York City. His studio in Newport Beach, California, specializes in wedding, portrait, and commercial photography but also photographs editorial and fashion work on a regular basis. Marc's images have earned more than a dozen national and international awards and have been featured in numerous magazines, including *Riviera*, *Los Angeles Confidential*, *The Knot*, *Ceremony*, and *RangeFinder*.

Jeffrey and Julia Woods (www.portraitlife.com). Jeffrey and Julia Woods are award-winning wedding and portrait photographers who work as a team. They operate a successful

wedding and portrait studio specializing in highly personalized images that reflect the unique tastes and experiences of each client. Their elegant portraits have been featured in *Rangefinder* magazine and in numerous photography books. In addition, their acclaimed marketing strategies have become the basis for a successful educational program for professional

photographers, which they run out of their studio in Washington, Illinois. They were awarded WPPI's Best Wedding Album of the Year for 2002 and 2003, eight Fuji Masterpiece Awards, six Kodak Gallery Awards, and two Kodak Gallery Elite Awards.

GET THE CREATIVE SPARK YOU NEED TO DESIGN BETTER POSES AND SPICE UP YOUR BRIDAL PORTRAITS

Filled with images by some of the world's most accomplished photographers, this book provides a resource for wedding photographers seeking inspiration for their own work. Stuck on what to do with a particular client? Flip through the samples, pick something you like, then adapt it as needed to suit your tastes. Looking to freshen up your work with some new poses? Find a sample that appeals

to you and look for ways to implement it (or some element of it) with one of your brides. It can be difficult to remain creative day after day, year after year, but sometimes all you need to break through a slump is a little spark. In this book, you'll find a plethora of images designed to provide just that.

FEATURES:

- Inspirational ideas for studio and location portraits
- Head-and-shoulders, waist-up, three-quarter, and full-length poses
- Examples of classic, casual, and fashion posing styles
- Poses for standing, seated, and reclining portraits

INCLUDES IMAGES BY:
